

"MORE THAN A SEO TASK" – SHORT TERM CONTRACT

JOB DESCRIPTION

Our small charity is very fortunate to have a wonderful new website thanks to a generous sponsor. We now need some help to complete outstanding formatting and functionality, and to optimise the site to improve our search engine rankings.

This short term assignment requires an energetic, "hands on" adaptable person, enthusiastic about SEO, WordPress website management and digital marketing in general. We have already identified most of what needs doing and will provide a brief. If you're an efficient self-starter with great attention to detail, who thrives in a varied role, this could be for you.

Reporting to Jenny, our Director

Purpose: To support the T4CG team to complete a recently built website and improve online visibility.

Overview: working remotely, the job holder will provide SEO, editing and formatting skills to fine tune new and existing content, adhering to an agreed strategy and established site design.

Key responsibilities

- Creating keyword tags across all content.
- Optimizing and updating our existing content, meta tags, URLs, keywords.
- Building incoming links with influencers and existing partners to improve off-site visibility.
- Implementing good SEO practice including optimizing images and repairing 404 links.
- Correcting formatting in a batch of new articles to align with established house style.
- Uploading new audio and video content and organizing our YouTube channel.
- Flagging up functionality issues (this assignment does not involve site building).

Hours

Working remotely. 4 week contract @ 37.5 hours per week, or equivalent time spread over a longer period, paid at the London Living Wage. Assignment also available as a freelance opportunity for an agreed fee.
